DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-15, drawn to a cellular phone mouse, classified in class 345, subclass 163.
- II. Claims 16-17, drawn to a card inserted to a laptop or other computer, or a laptop or other computer that can communicate with the cellular communication hardware of the cell-mouse, classified in class 345, subclass 156.

The inventions are distinct, each from the other because:

Inventions of group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of group I of a cellular phone mouse which does not operate with a card inserted to a laptop or other computer, or a laptop or other computer that can communicate with the cellular communication hardware of the cell-mouse by group II. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Pervan whose telephone number is (703) 717-1243. The examiner can normally be reached on Monday - Friday between 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on (571) 272-7778. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
